REACH COMPLIANCE

REACH

(Regulation, Evaluation, Authorization and Restriction of Chemicals)

Brandex Components works continually to ensure our products are compliant with local, national and international regulations. Legislation out of the European Union (EU) called REACH (Regulation, Evaluation, Authorization and Restriction of Chemicals) requires either the manufacturer or importer of products and chemical substances to provide the documentation of substances used in all components of our products to customers and the European Chemicals Agency.

The current list of substances which are termed as SVHC's under REACH, are **not present** greater than 0.1% w/w in products Brandex currently supplies.

If you would like to know more about REACH, please visit <http://echa.europa.eu>
